

## SCOPE OF THE JOURNAL

*IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI)* publishes articles on all traditional areas of computer vision and image understanding, all traditional areas of pattern analysis and recognition, and selected areas of machine intelligence, with a particular emphasis on machine learning for pattern analysis. Areas such as techniques for visual search, document and handwriting analysis, medical image analysis, video and image sequence analysis, content-based retrieval of image and video, face and gesture recognition and relevant specialized hardware and/or software architectures are also covered.

## ADDITIONAL INFORMATION

*TPAMI* is a scholarly archival journal published monthly. Its editorial board strives to present most important research results in areas within *TPAMI*'s scope.

## SUBMISSION OF MANUSCRIPTS FOR REVIEW

The information below is a summary of our guidelines detailed at the *TPAMI* author center, [www.computer.org/web/tpami/author](http://www.computer.org/web/tpami/author). All authors are responsible for understanding these guidelines before submitting their manuscript.

### ScholarOne Manuscripts

The IEEE Computer Society is now employing a secure, Web-based manuscript submission and peer-review tracking system called ScholarOne Manuscripts. To submit a manuscript, please visit <https://mc.manuscriptcentral.com/tpami-cs>. The site contains detailed instructions on usage and submission requirements.

The articles in this journal are peer reviewed in accordance with the requirements set forth in the IEEE PSPB Operations Manual (<https://pspb.ieee.org/images/files/files/opsmanual.pdf>) (sections 8.2.1.C & 8.2.2.A). Each published article was reviewed by a minimum of two independent reviewers using a single-blind peer review process, where the identities of the reviewers are not known to the authors, but the reviewers know the identities of the authors. Articles will be screened for plagiarism before acceptance.

### TPAMI Manuscript Specifications

- Regular papers—12 double-column pages, using the IEEE CS template\*
- Short papers—8 double-column pages, using the IEEE CS template\*
- Comments papers—2 ½ double-column pages, using the IEEE CS template\*
- Survey papers—20 double-column pages, using the IEEE CS template\*

\*These page limits include references and reasonably-sized figures.

A double-column page is defined as an 7.875" x 10.75" page with 9.5-point type and 12-point vertical spacing. Margins should be one inch all around (for top, bottom, right, and left).

Templates for submitting manuscripts can be downloaded from the *TPAMI* author center.

### Online First Publication Model

The IEEE Computer Society uses an online first publication model which means that accepted papers will be posted online shortly after all publication materials are received. Author PDF will be stamped as a "Preprint" and sent to the IEEE for posting in Xplore. Authors that do not wish to participate in this program should notify the Transactions Administrator upon acceptance of the paper.

### Supplemental Material

Supplemental material can include relevant proofs, code, experimental data, short movies, appendices, animations, audio, etc.

All supplemental material will undergo the peer review process along with the paper.

Supplemental material will be published on our Digital Library with the electronic version of the paper, where it can be accessed for free, and a pointer to the supplemental material will be included in the printed version.

IEEE prohibits discrimination, harassment and bullying. For more information, visit [www.ieee.org/web/aboutus/whatis/policies/p9-26.html](http://www.ieee.org/web/aboutus/whatis/policies/p9-26.html).

For information on submitting final publication materials, please visit [www.computer.org/web/peer-review/journals](http://www.computer.org/web/peer-review/journals).

## SUBMISSION POLICIES

Submissions to *TPAMI* must represent original material. Papers are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another journal.

Concurrent submission to these Transactions and other publications is viewed as a serious breach of ethics and, if detected, will result in immediate rejection of the submission.

However, papers previously published in conference proceedings, digests, preprints, or records are eligible for consideration provided that the papers have undergone substantial revision and that the author informs the Transactions Administrator and editor-in-chief at the time of submission. A version of the previously published work will need to be sent to our office, and a brief description of the differences will need to be provided.

## COPYRIGHT INFORMATION

The author is responsible for obtaining copyright releases and corporate and security clearances prior to submitting material for consideration.

Please refer to the IEEE policies ([http://www.ieee.org/publications\\_standards/publications/rights/index.html](http://www.ieee.org/publications_standards/publications/rights/index.html)) on plagiarism, multiple submissions, and permission to reuse copyright material to ensure that your paper meets all criteria for submission.

It is the IEEE's policy (Policy 6.16) to assume that all clearances are granted when a paper is submitted.

For more information about our copyright policies, please visit [www.computer.org/copyright.htm](http://www.computer.org/copyright.htm).

## OPEN ACCESS

This publication is a hybrid journal, allowing either Traditional manuscript submission or Open Access (author-pays OA) manuscript submission. By selecting "YES" to the Open Access question, you commit to pay the discounted \$2,045.00 OA fee if your manuscript is accepted for publication in order to enable unrestricted public access.

Corresponding authors from low-income countries are eligible for waived or reduced open access APCs (<https://open.ieee.org/index.php/about-ieee-open-access/faqs/#waivers>).

Any other application charges (such as over-length page charge and/or charge for the use of color in the print format) will be billed separately once the manuscript formatting is complete, but prior to the publication.

If you select Traditional submission, your article will be available to qualified subscribers and purchasers via IEEE Xplore™. No OA payment is required for Traditional submission.

## ORCID

**ORCID Required:** All IEEE journals require an Open Researcher and Contributor ID (ORCID) for all authors. ORCID is a persistent unique identifier for researchers and functions similarly to an article's Digital Object Identifier (DOI). ORCIDs enable accurate attribution and improved discoverability of an author's published work. The author will need a registered ORCID in order to submit a manuscript or review a proof in this journal.

## Ordering Reprints

Information about purchasing reprints can be found at [www.computer.org/author/reprint.htm](http://www.computer.org/author/reprint.htm).

For additional information or to inquire about the status of a paper awaiting production, please visit the IEEE Computer Society Web site or contact the *TPAMI* Transactions Administrator.
